e-Pack for Windows CE

The great diversity of emulations supported allows connection to most mainframe servers on the market :

IBM 3151, 3270, 5250,
DIGITAL VT52, VT100, VT500,
ANSI BBS, SCO CONSOLE, WYSE 50, 50+, 60,
TELEVIDEO 910, 920, 925,
ADDS A2, HAZELTINE 1500,
HP 700/92, BULL BQ3107

Key Features :

- Intuitive configuration of emulation sessions.
- Multiple sessions: up to 10 simultaneous emulation sessions and 8 Windows sessions.
- Automatic logoff of sessions left open further to sudden shutdown of terminal.
- Support for named sessions.
- Current session name displayed using Hot Keys.
- Local printer management (PRT5250 / RFC2877).
- LPD printer server. Local printer controlled by LPD server is accessible to all other networked workstations.
- Virtual Network Printer: local printer redirected to an IP or UNC (Universal Naming Convention) printer.
- Password-protected remote terminal control (VNC).
- Full administration thanks to ItiumAdmin supplied as standard
- Support for 122-key keyboard.

The 5250 keyboard with double silk-screenprinting (option)

- 122-key keyboard, F1 to F24 function keys, system key pad, keyboard layout identical to that of an IBM keyboard.
- Double silk-screen printing for dual use (Windows & OS400).
- PS2 connector, Status LEDs.
- Ordering reference: CL5250

e-Pack for LINUX

The great diversity of emulations supported allows connection to most mainframe servers on the market :

IBM 3270, 5250, WYSE 50, 60,
Digital VT52, VT100, VT400, VT525
ANSI BBS, SCO Console,
TELEVIDEO 925, 950,
